Attachments: FW: AK Steel update

Ed,

I think Katie was working on this. See attached.

Sara

Sara,

I will need a response for Bob.

Thanks
-Ed

Subject: Heads Up - AK Steel Monitoring Results - Where are Results?

Hello Ed,

I wanted to give you an heads up about the AK Steel monitoring results that are still in your shop. My Commissioner has asked why we cannot obtain the values that you have measured? We told him that they are still being reviewed and are not ready to be released, but he is still asking why we cannot have them in draft form.

The reason that this is an issue is that I was called by the Ohio Department of Health who was contacted by ATSDR, Region V a couple of weeks ago with the claim that Ohio EPA was "hiding data" from US EPA/ATSDR. Over the course of the last couple of weeks we have supplied the information to US EPA Region V on several occasions promptly, usually, the next day or even the same day that we have received the data. I am sure that you can understand why we would be sensitive when we are accused of "hiding data", yet, it is weeks before we can obtain any written documentation of your results. (Your staff did provide us with some results over the phone).

I wanted to ask you to try to expediate the finalization of results and to let you know that my Commissioner is pushing me also.

Thanks.

Bob
